

ATLANTIC CALCIUM-LITHIUM COMPLEX GREASE MP3

(ALSO AVAILABLE IN NLGI 000, 00, 0, 1 & 2)

DESCRIPTION & APPLICATIONS

ATLANTIC Calcium-Lithium Complex Grease is a high-performance, multi-purpose grease formulated using a combination of calcium and lithium soaps as the thickener. This formulation combines the benefits of both thickeners, resulting in a grease that offers excellent performance across a broad range of operating conditions. Calcium-Lithium Complex Grease is known for its superior mechanical stability, water resistance, and performance under extreme temperatures, making it ideal for use in various industrial and automotive applications.

PERFORMANCE FEATURES AND BENEFITS

- Superior water resistance:
- High temperature stability
- Long-Term Durability
- Good corrosion Protection
- Versatility as it can be used from automotive to industrial, offering a reliable and multi-purpose solution for different industries.

TYPICAL CHARACTERISTICS

PRODUCT CODE:	AGL-G-250025
Thickener Type	Calcium + Lithium
NLGI Classification	3
Texture	Smooth
Color, Visual	Yellow
Dropping Point, °C, ASTM D566	200
Worked Penetration @25°C 60 strokes, ASTM D217	225-250
Operating temperature range, °C	-20 to 180
Kinematic viscosity of the base oil at 40°C, mm²/s, ASTM D 445	120

Packing: 400g, 500g, 1kg, 3.5kg, 5kg, 15kg, 18kg, 180kg

Note: These characteristics are typical of current production. While future production will conform to Atlantic's specification, variations in these characteristics may occur.
